Eastern Redcedar Utilization Demonstration Day

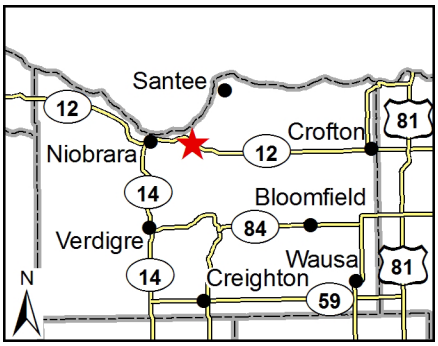
Thursday, December 8, 2011 • Santee Sioux Reservation • 9:30 a.m.

(5.5 miles east of Niobrara, Nebr.)

The Nebraska Forest Service will host a demonstration day focusing on equipment that can be used to utilize eastern redcedar trees. Landowners, processors and the general public are invited to attend.

Agenda

9:30	Meeting & registration at Ohiya Casino parking lot
10:00	Travel to Santee Sioux Tribe field site
10:15	Demonstration, Part 1
12:00	Lunch (not provided but available at Ohiya Casino)
1:30	Demonstration, Part 2
2:00	Demonstration, Part 3



Topics of the demonstration will include the economics of utilizing redcedar, the value to the landowner, how it's harvested and the value of products delivered to a wood-using facility.

Equipment like a Tiger Cat 720 feller-buncher (left), post peeler (center) and Propac stroke delimber (right) will be on site to demonstrate how to utilize eastern redcedar trees effectively.

Sponsors: Santee Sioux Tribe • Frankie Thomas Logging • Bureau of Indian Affairs, Winnebago Agency • American Wood Fiber • Nebraska Forest Service • University of Nebraska–Lincoln
