

Agenda Item 5. Staff Report

- a. Legislative Update Pages 5-2
- b. Grant Administration Report Pages 5-5 thru 5-1:
- c. Ferguson House Report Page 5-3; thru 5-45
- d. Director's Comments

Agenda 5a. Legislative Update

The proposed last day of this session is April 20th. There are only three working days left after Thursday, April 7th.

LR380CA (Bloomfield) would have reduced the Nebraska Environmental Trust allocation from the Nebraska Lottery from 44.5% to 26.5% and reduced the Nebraska State Fair from 10% to 7.5%. The funds would have been shifted to the Educational Fund controlled by the Legislature. Their allotment would have gone from 44.5% to 65%. This legislative resolution was indefinitely postponed on February 5, 2016, by a vote of 7-1 in the General Affairs Committee.

LB 711 (Hughes) This bill would reinstate an appropriation and the Riparian Vegetation Management Task Force in fully appropriated or over-appropriated river basins. It directed the Director of Agriculture to apply to the Environmental Trust for grants. The bill was modified in committee to take the language directing the Director of Agriculture to apply for Trust grants and eliminated language restricting funds to only fully and over-appropriated river basins. This bill along with LB 1019 and LB 639 were rolled into LB 1038.

LB 1038 (Davis) This bill would allow the owner of a hydropower facility with a water appropriation to transfer the appropriation jointly to the Nebraska Game and Parks Commission and any NRD or combination of NRDs and to change the use to maintain streamflow for the conservation of fish, wildlife, recreation and to assist in the implementation of integrated management of ground and surface waters.

LB 1038 is currently on Select File and a modified LB 711 has been amended into it along with LB 1019 (changes to the Niobrara Council) and LB 639 (pertaining to the Nebraska Department of Roads and vegetation obstructing advertising signs).

Agenda Item 5b. Grant Administration Report

**Grant Administration Report
As of March 23, 2016**

Late Reports:

App Id	Sponsor Name	Next Report
13-123-2	Nebraska One Box Foundation	7/31/2014
13-155	Habitat for Humanity of Omaha ReStore	10/31/2014
14-217	Lincoln Children's Zoo	1/31/2016
14-112-2	Little Blue Natural Resources District	1/31/2016
14-156	Nebraska Clean Cities Coalition	1/31/2016
15-177	Omaha, The Transit Authority of the City of Omaha	1/31/2016
15-171	Omaha, The Transit Authority of the City of Omaha	1/31/2016

The Grants Administrator has sent reminder letters and/or called each grantee to discuss the late reports.

Modifications Approved by Staff:

The following grant modifications were approved by the Executive Director. A copy of the requests and approval letters are included for your review in this section. (Pages 5- 2 through 5-16)

App ID	Sponsor Name	Request
11-201	Ducks Unlimited - Rainwater Basin WPA Restoration	Budget Modification

RE: Nebraska Environmental Trust Project #11-201-2: *Rainwater Basin Waterfowl Production Area Restoration*

Dear Marilyn,

Ducks Unlimited is pleased to provide our fourteenth periodic report for this grant, covering the period October 1, 2014 through December 31, 2014. **In this report, we are requesting reimbursement of \$17,732.84 in restoration costs and showing \$2,960.89 in matching contributions.**

With this report we would like to request a modification to the project's budget. We would like to move \$1,221.74 from the "Earthwork" category to the "Engineering" category.

If you have any questions regarding this report, or require additional information, please do not hesitate to call me. Thank You.

Modification Requested

RE: NET 12-166 - Grazing Infrastructure to Support Rainwater Basin Working Lands Initiative. Reporting Period: October – December 2015 (15)

Dear Marilyn,

In this last (15th) quarterly reporting period for the Grazing Infrastructure to Support Rainwater Basin Working Lands Initiative, we are requesting total reimbursement in the amount of \$107,364.79. We are submitting invoices in the amount of 101,772.51 for Supplies and Materials. We are also requesting a total amount of \$5,592.28 for grant administration. We are reporting matching funds during this reporting period in the amount of \$54,312.75.

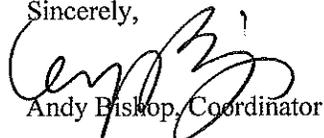

Please note that we are requesting a modification in the amount of \$4,376.00 to move funds from the Communications category to the Supplies and Materials category.

During this reporting period we collaborated with Ducks Unlimited to complete boundary and perimeter fencing project on the Merl Hinze, Regier Acquisition, Dietz and whiskey Flats projects. We also worked with Ducks Unlimited on the Cottonwood Ranch property project in which Sargent Irrigation installed a livestock watering facility. These projects combined enhanced 453 acres of wetland and grassland habitat. During this period the Duane Rieflien project was also completed which involved installing a perimeter fence, berm and tree removal, and installing a livestock watering facility. This project enhanced over 81 acres of habitat.

All of the funds in this grant have been expended and we anticipate submitting the final report within the next few weeks.

The JV and its partners continue to appreciate the support of the entire NET staff and the funding to support our conservation efforts in reaching our long term restoration goals as set forth by the North American Waterfowl Management Plan (NAWMP). Without the support of NET completion of our goals and objectives would be extremely difficult.

Sincerely,

Andy Bishop, Coordinator

NET 13-120 Rainwater Basin Wetland Management for Improved Migratory Bird Habitat
Quarterly Report (11): October - December 2015

Dear Marilyn,

During this 11th reporting period we are requesting total reimbursement in the amount of \$58,935.46. We are submitting with invoices for the following categories:

- Contract Labor in the amount of \$835
- Supplies in the amount of \$55,294.01
- Grant Administration in the amount of \$2806.45

We have matching funds to report in the amount of \$5,149.91.

To reconcile our disbursement records **the Rainwater Basin Joint Venture respectfully requests a budget modification** to shift funds in the amount of \$16,868.17 from the Contract Labor category to the Supplies category.

During this reporting period a total of 3,207 acres were treated with herbicide to control reed canary grass, cattails, bulrush and other non-desirable vegetation. 1,228 acres were treated on Wildlife Production Areas, 1,744 acres were treated on Wetland Management Areas and 235 acres were treated on Wetland Reserve Program projects. The RWBJV Wetland Habitat Specialist is in the process of working with the Nebraska Game and Parks Commission land managers, Ducks Unlimited staff, and the U.S. Fish and Wildlife Wetlands Management District to prepare for spraying on private and public lands once weather conditions are favorable later this spring.

Sincerely,

Andy Bishop

Lincoln, Nebraska 68503-4913

Subject: Project No. 13-131, Project Name – Fire Partnership Program
Sponsor: Prescribed Burn Taskforce.

Dear Miss Tabor,

The Prescribed Burn Task Force would like to request a transfer of all remaining funding from the “training” budget category to the “equipment” budget category for this grant. According to my records such a transfer would result in \$3095.46 in the “equipment” budget category. The Prescribed Burn Task Force will still conduct all training as planned, and will absorb all costs for the training. PBTF would count the training costs as a matching contribution for this grant project. Your consideration of this matter is greatly appreciated.

Sincerely,

David W. Carr

Marilyn,

We are requesting that \$30,000 be moved from the Prescribed Burn Coordinator NET budget category to the Grazing Deferment NET budget category in the 13-159-3 Grassland Improvement Program grant. At this time, we have a greater need to spend the funding on projects than on Prescribed Burn Coordinator activities. This grant ends June 30, 2016 and we are submitting this written request before the end of the grant.

Budget Category	Current Funding	Updated Funding	Difference
Grazing Deferment	\$141,000.00	\$171,000.00	\$30,000.00
Prescribed Burn Coordinator	\$30,000.00	\$0.00	-\$30,000.00
	\$171,000.00	\$171,000.00	

If you have any questions please feel free to give me a call. We appreciate your consideration in this funding shift. Please let me know if this shift is approved, thank you.

Sincerely,
Pheasants Forever

Continuous No-till and Soil Health Education

Project # 13-179-3

Progress Report – October 1, 2015 through December 31, 2015

Project Sponsor: PrairieLand RC&D

****** I am requesting a transfer of \$2000 from the "TRAVEL" category to the "PERSONNEL" category******

Producers and educators were invited to learn the basics and the latest techniques in continuous no-till planting and soil health education by providing hands-on learning and classroom experiences at a couple of field days and seminars. On October 6th, Mike McDonald hosted a field day at the Prairieland Dairy in Palmyra and Douglas, NE. This field day was also supported with a Conservation Innovation grant from NRCS. Dr. Ray Ward was on hand to educate about soil testing. The field day focused on building nutrients, reducing weeds and improving soil quality. On December 1st, the Degenhardtts hosted a field day in Hebron with a focus on cover crops and grazing.

The Natural Resource Conservation Service employees have been busy presenting the rainfall simulator and speaking to a variety of audiences. They answered a lot of cover crop questions during their time at the Wayne County Fair, presented the rainfall simulator to sophomore and junior students in Pierce at the Wonderful World of Water event, prompting interest in another presentation. NRCS employees manned a booth at Husker Harvest days and presented a tabletop version of the rainfall simulator. Dan Gillespie and Marty Marx also presented the rainfall simulator to high school Ag and Biology students in Oakland. They were shown the importance of soil health, residue on the soil surface and aggregate stability and integrity. NRCS is doing on-going promotions of soil health, cover crops and no-till farming methods through Public Service Announcements on WJAG, KTCH and KTIC radio stations. Dan Gillespie spoke to the students at Northeast Community College, the Ag Horizons Winter Conference in Pierre SD and presented the rainfall simulator in York at a field day sponsored by the Upper Big Blue NRD.

Educators continue to speak with producers throughout the state on an individual basis.

The rainfall simulator will again take up the corner of the building at the Chuck Pohlman Ag Complex in Norfolk for the 29th Annual Northeast Nebraska Farm & Equipment Show on January 13 & 14, 2016.

UNL, No-till on the Plains and the Panhandle No-till Partnership organizations are busy planning and getting ready for the winter conference season. The No-till on the Plains Winter

Conference will take place on January 26-28, 2016 in Salina. The grant will be offering incentives to first time Nebraska attendees and also repeat attendees. The Panhandle No-till Partnership will host their Winter Conference in February. The UNL Extension will also be planning their winter conferences in Hallam, Holdrege and Mead in February. NRCS and the Lower Elkhorn NRD will hold their No-till Incentive and Cover Crops workshop in Norfolk on February 17th and Marty Marx from NRCS will speak to the Kiwanis Club on Feb 22nd.

Mark Watson continues to write his weekly column and prepare for all of the educational events taking place in January and February.

I have included some of the newsletter info from our partners at Green Cover Seed. Their business is doing so well they were even invited to the White House! They have expanded their business to include the whole region, host on farm field days and attend many conferences with their Green Cover Seed booth.

- A. Field Day October 6th - Palmyra
- B. Field Day December 1st - Hebron
- C. Mark Watson – No-till notes
- D. Green Cover Seed
- E. Nebraska Farmer – articles
- F. NRCS pictures from Wayne CO fair and Oakland students
