

Agenda Item 9. Establish Electronic Application

Staff recommends that with current progress, an electronic application should be available for the 2018 grant applications cycle. If staff is confident that the electronic application process is fully functional by May 15, 2017, then the Trust shall implement the process on June 1, 2017. The Trust will encourage electronic submissions, but will allow traditional submissions for one more year.

Possible Action: motion to adopt, modify and adopt, or deny the recommendation.
